ULTRALIGN G2

The heart of the ULTRALIGN system is the piezoelectric sensor. The patient's evaluation is displayed on the 23" LCD touch screen display. An accelerated mass in the treatment head allows for a comfortable low-force percussion to treat an area with oscillation in a calculated sub-harmonic frequency..

The ULTRALIGN provides a treatment progression that is objective, precise and preferred!

The world's most advanced & sophisticated analysis and treatment device.

- All new Multi-Axial analysis
- Selectable Frequency
- Built in Patient Education
- Trigger point therapy
- Custom Protocols
- Selectable preloads
- EMR/EHR compatible
- Treatment tips

The Future is . . . In the Technology!

Sigma Instruments has designed the future of physical medicine, with the highly anticipated release of its software code named: PROMETHEUS. This cutting edge system of patient analysis and treatment will launch patient care to a level never before realized. Breakthroughs like these are what clearly sets our system apart from everything else...ever!

Piezoelectric Adjusting Head

- True percussive technology
- Precision Engineered
- Extremely user friendly
- Aircraft-grade metal alloy construction
